Policy Subject: Elimination of Job Categories from List of Allowed Time Study Participants

Affected Programs: Medicaid

Distribution: School Based Services

Policy Summary: Eliminates three job categories from list of allowed time study participants for the School Based Services Administrative Outreach Program.

Proposed Policy Draft

Michigan Department of Community Health
Medical Services Administration

Distribution: School Based Services

Issued: XX/XX/05

Subject: Elimination of Job Categories from List of Allowed Time Study Participants

Effective: July 1, 2005

Programs Affected: Medicaid

The purpose of this Bulletin is to amend policy contained in the School Based Services Administrative Outreach Program Chapter (Section 4.2) of the Michigan Medicaid Provider Manual.

Based on the statewide time study results for January-March 2004, April-June 2004, and July-September 2004 (see Attachment), it has been determined that the following job categories have not produced a reimbursable activity through the Random Moment Time Study (RMTS) process and have not benefited the resulting quarterly Administrative Outreach claims:

1. Bilingual Specialist/Translator
2. Interpreter
3. Nurse Practitioner

For the quarter beginning July 1, 2005, the names of individuals working in these job categories should no longer be placed on Intermediate School District (ISD) and Local Education Agency (LEA) staff pool lists for inclusion into the statewide list of staff pool participants. It is anticipated that the removal of these three job categories from the staff pool will enable individuals in other job categories to be chosen for moments that may result in reimbursable activities and, therefore, positively impact the claiming process.

ISDs and LEAs will be able to request exceptions through the Michigan Department of Community Health, Program Policy Division, for specific individuals in these job categories if they wish them to remain on their staff pool list.
